MY PORTFOLIO

[Portfolio](#)

ABOUT ME

My name is Phawin Thongsen, and I am passionate about becoming a Fullstack Developer. I am ready to learn new programming languages and technologies. I perform well in challenging environments and can adapt to working both independently and as part of a team.

PROJECT EXPIRENCE

Mini project bu open house

This project is a promotional website for Bangkok University's Open House event.It aims to provide useful information to students and visitors,such as event date, location, and highlights like faculty showcases, workshops, exhibitions, and performances.The site is designed to be user-friendly, visually appealing, and responsive across devices.It was developed using only HTML and CSS, without JavaScript or any additional tools.

Responsibilities included creating the Sponsors & Partners page, Gallery page, Schedule page, and Map page.

hotel-management-system

This project is a Hotel Management System developed as part of a CRUD assignment using React. The system allows users to manage various aspects of a hotel, such as rooms, bookings, and staff.

My main responsibility in this project was to develop the employee management module, which includes creating, reading, updating, and deleting employee information.

WORK EXPERIENCE

NECTEC - NSTDA (4 Month)

Intenship : Research Assistant Intern

During my internship at NECTEC, I worked with the Information Security Research Team on cybersecurity tasks. I built simple Python tools using Gradio for dataset cleaning, and contributed to reports with GAN and Deepfake visuals. The experience improved my problem-solving, teamwork, and technical writing skills.

EDUCATION

Bachelor of Information Technology and Innovation Computer Science
Bangkok University
